

GET TOGETHER

Chet Powers

INTRO: E D (x3)

Verse 1

E
Love is but the song we sing,
D
And fear's the way we die.
E
You can make the mountains ring,
D
Or make the angels cry.
E
Know the dove is on the wing,
D
And you need not know why.

Chorus

A B
C'mon people now, smile on your brother,
E A
everybody get together, try and love one
B E D E
another right now.

Verse 2

E
Some will come and some will go..
D
And we shall surely pass.
E
When the one who left us here,
D
returns for us at last.
E
We are but a moments sunlight,
D
fading in the grass.

Verse 3

E
If you hear the song I sing,
D
You must understand.
E
You hold the key to love and fear,
D
All in your trembling hand.
E
Just one key unlocks them both,
D
It's there at your command..
